PROFESSIONAL SUMMARY

Summary

I build practical software for trading and business workflows using Python, Streamlit, TypeScript, and automation-first tooling.

I am strongest at turning unclear requirements into production-ready deliverables, with clear stakeholder communication and disciplined execution.

CURRENTLY OPEN TO

- Software engineering roles (fintech-focused preferred)
- Internships and early-career product/engineering opportunities
- Freelance or contract development projects

Education

UNIVERSITY

Georgia State University ·
 B.B.A., Finance
 2020 – 2025. Completed an Associate of Science prior to continuing toward the B.B.A.
 Relevant coursework: Financial Accounting, Business Technology, Intro to Business, Marketing Principles.

HIGH SCHOOL

North Springs Charter School ·
 High School Diploma
 2017 – 2019 · GPA: 3.7

ACADEMIC FOCUS

Finance + software execution: risk management, reporting, automation, and practical tooling for real operating workflows.

Experience

Independent Day Trader & Full Stack Developer

Self-Employed · Atlanta, GA · Feb 2023 – Present

Trade equities with a disciplined risk-to-reward framework while building practical software for live trading operations and freelance client reporting.

- Maintain structured trade logs and weekly performance reviews to improve edge quality and risk control
- Built Python utilities and Streamlit web apps (position-sizing calculators, trade-log exporters, lightweight dashboards) used in live trading and by freelance clients
- Delivered spreadsheet cleanups, automation scripts, and ad-hoc reporting for peers and small businesses to reduce manual work and improve reporting accuracy

Jr. Account Manager

ABC Consultants Group · Atlanta, GA · May 2022 – Feb 2023

Managed client-facing account execution and internal tracking to keep deliverables and billing timelines on schedule.

- Managed client communication, project documentation, and status reporting to support timely invoicing and delivery
- Maintained Salesforce and internal trackers for clear account health visibility and next actions
- Coordinated with cross-functional teams to keep priorities aligned and work unblocked

Marketing Intern

Mixdiety · Atlanta, GA · Jun 2021 – Feb 2022

Supported campaign planning and reporting through customer research and execution support across digital channels.

- Researched market trends and customer behavior to inform campaign direction
- Supported outreach across social and email channels
- Prepared performance summaries for leadership to support campaign decisions

Server

Benihana · Atlanta, GA · Jun 2020 – Jun 2021

Delivered high-volume customer service while coordinating with kitchen staff in a fast-paced environment.

- Maintained hospitality standards during peak service periods
- Coordinated service timing across front-of-house and kitchen teams
- Balanced customer experience with operational efficiency under volume

Server

Intermezzo Cafe · Atlanta, GA · Jan 2019 – Jun 2020

Provided professional front-of-house service and supported day-to-day revenue initiatives.

- Supported upselling and daily-specials initiatives
- Delivered consistent service quality and customer communication
- Handled customer interactions with professionalism and speed in a busy setting

Featured Projects

(-█_█) RIZZK Calculator 🚀

Production-grade position sizing and risk calculator for day traders
